If we should fail to give you style, excellent workmanship, a perfect fit and the best of materials you are entitled to return your order for a refund.

Introduction

WE take great pleasure in presenting to you our illustrated catalog, which contains actual photographs of some of the work we do.

We specialize, in fact, have made it our business to make the **BEST HAND MADE-TO-MEASURE COWBOY RIDING BOOTS IN CANADA**, in fact, we have earned the title of being **CANADA'S LEADING COW-BOY BOOT MAKERS**. We also make men's or ladies, high or low cut shoes, and have a gift of making a perfect fit for people who are in need of orthopedic shoes.

AIM

It is our aim to make and sell nothing but the best, and by doing this, we are able to stand behind our goods, giving with each purchase, our Iron Clad Guarantee, which is, Money Back, if we should fail to give you good workmanship, material and style. It is our aim to shoot square, giving the best, and in return, receiving continued and good-will business.

MATERIALS

A well made thing, without the best of materials, is like a good roper, with a poor Horse, you can't win. So that, we may have the best of Materials, to go with our perfect Workmanship, we have had to import nearly all our leathers.

FROM HUNGARY — We secure our finest of calf skin leathers, which is as smooth as velvet, closely grained, and will stand hard wear.

FROM AUSTRALIA — We secure our Kangaroo leather. This leather is well known, where riding boots have been worn. It is light of weight, soft and the laboratory tests, show, that it is 17% stronger, than any leather of its own weight and thickness.

MORROCO KID — is secured in Canada.

ALL SOLE LEATHER — Whether in new work or repairs, is cut from Prime Packer Steer Hides, and is hand cut, so that its equality and uniformity are correct.

WAXED VEAL — This leather is of domestic type, it is available either light or heavy in weight, and is waxed or oiled, which makes it waterproof, and also a great leather for hard wear and for riding in brush, where a great strain is had. We highly recommend it for hard tough wear, although it is soft, pliable and good looking.

WORKMANSHIP

A shoe may have the best of materials in it, it is not a shoe, if it does not carry the best of Workmanship. You will note, when looking through this catalog, that the fine workmanship stands out predominant.

SHIPPING GOODS

At least twenty per cent of the cash value of a purchase must accompany an order, before we will make it up. Orders, which a cash deposit has accompanied it, may be shipped C.O.D. for the Balance. To insure quick and inexpensive delivery, it is best to send full amount of order.

All orders less than \$5.00 must be accompanied by Postage Charges.

MEASURING

A measurement chart accompanies this catalog. A new or added charts, may be had for the asking. Always take great care in filling out chart.

REPAIR DEPARTMENT

We maintain a repair department, where we may repair any article made of leather, or connected with the leather business, in anyway. Prices will be submitted at any time. We suggest that you do not send your leather goods or Riding boots to any unexperienced leather goods man, but send them to us, where you are always assured of receiving the best of care.

NOTE

This catalog has cost us Fifty Cents apiece, besides considerable time, putting and composing same. So we suggest, that you share it with your fellow men. Give us a boost, and you will never regret it.

BOOT No. 15

Here is a tough wearing boot. If you are looking for an inexpensive boot, that will stand all kinds of hard wear, this is the one you want. We have received high compliments on the wearing qualities of this boot.

Made with single ply Elk tops, and single ply heavy waxed veal vamps, pegged soles, and one row of colored stitching.
Boot as above mentioned \$14.00

Same as above, made up with either lined and wrinkled vamps, or an inlay of Texas steer. \$15.00.

1600

BOOT No. 16

This boot, is made on the regular riding boot last, and made for those wanting a low gaiter cut, lace boot. It is strongly built and designed to look well. Either brown or black and with any height of heel.

Price, single ply, soft toe **\$12.50**

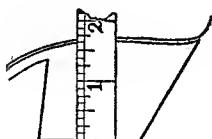

With lining, and hard boxed toe,
either wrinkled or plain **\$14.00**

EXTRAS

The above cuts, show the toes, wrinkled, and winged toe cap. All our shoes, have wrinkled toes, unless otherwise wanted. The winged toe cap, is an extra toe cap put over the vamps, as shown, it is tripple stitched, and ornamented. It is a strengthener to the shoe, and also helps hold the shape of the shoe.

The price of winged toe caps, is **\$1.50** per pair over the prices quoted.

The above cut, shows how to measure the height of heel wanted. Measure on inside of shoe, and from bottom to top of heel. Our catalog shows three different heights of heels, the low or roper heel, as No. 6 boot, the No. 15 boot has the medium heel, and the others have the higher or contestant heels.

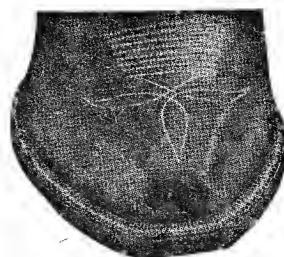

All heels are well undershot, and may be had with either rubber or leather tips.

Steel Plates on heels, at **50** cents extra.

Deduct one dollar, if pegged or nailed soles wanted in preference to sewn soles.

REMEMBER — Measure and Order with care. We guarantee a fit, but not where the measures have been given or taken wrongly.

EXTRAS

No. 1

No. 2

The No. 1 square toe, is the most popular, it has the streamlined effect, slightly flat on top, and square sides, and the end which is square, is slightly slanted forward.

The No. 2 square toe, is the in between, it is the same as the round toe, only narrower, and is square or rounded abruptly, as pictured, it has the round, narrow blunt, effect.

No. 3

The No. 3 square toe is of the ordinary kind with the square at end, but is much more slanted outwards at the top.

Remember — If a square toe is wanted add \$1.00 to price quoted.

HAND MADE BOOTS

The 16 inch boot cut, gives a fair idea of the boot. It is strictly hand made, fitting perfectly in the foot, leg, and ankle, measure carefully. The boot is made of, either, elk, oiled veal, calf, or any combination of leather. Heavy riding boot steel shanks are put in, with well shaped heels, wide leather strip at back of shoe and in general, is the best that can be made.

Price with	
Elk leather thru-out	\$13.00
With Oiled, waterproof leather	\$14.00
Made of dress calfskin	\$14.00

The 9 inch top boot, is a good seller, we have this in stock, made by Leckie, besides making them to order. Our hand made boots are very much superior, to any other, as they are well shaped and made of selected hand picked leather.

The price on our hand made boot, with	
sewn soles is, Elk	\$13.00
Oiled veal	\$13.50
The Leckie shoe, with 9 inch top, and nailed	
sole, sells for	\$6.75

**ROPER SADDLE**

The lastest model in ropers, built on a heavy cowhided roper tree, and of choice russet leather, and height of cantle or size of front may be had, or if you have a picture of a saddle you wish, submit it to us.

This cut shows, saddle with 12 inch front, 3 inch cantle, wrapped horn, 3 inch stirrup leathers, and riggin, $\frac{3}{4}$ double, E Z or double rig, extra.

Price; Finished as above	\$78.00
Finished Plain	\$74.00
Finished Full Flower Stamped	\$82.00

Add **\$2.50**, if double rig is wanted

Write for quotations on any saddle that you would be interested in.

All saddles are fully guaranteed, and made to order.

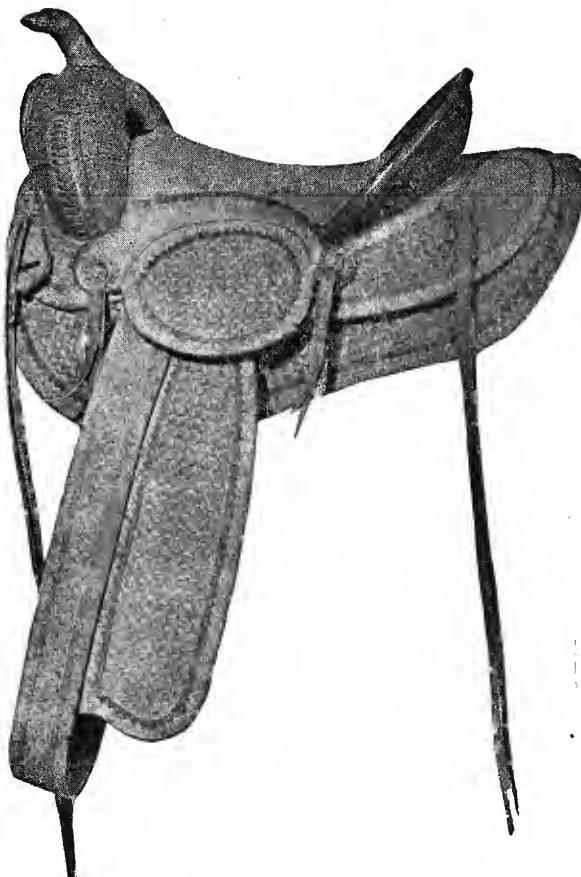

THE ASSOCIATION

This is the all round saddle, and approved by the Stampede Association ruling. This saddle is extra well built, to withstand hard useage, and is built for comfort, note the insert of the seat, which is well tapered and raised in front, which makes this an ideal all-round saddle.

Prices; Finished, plain	\$65.00
Finished, as shown	\$68.00
Finished, Flowered Stamped	\$70.00

Add **\$2.50** for buck or flank cinch.

We also have made for us, The Combination, which is built, between the roper and the above saddle, with 3 inch cantle and 13 inch front, and like the above saddle, it really sets low on a horse.

**THE JUNIOR CONTESTANT SADDLE**

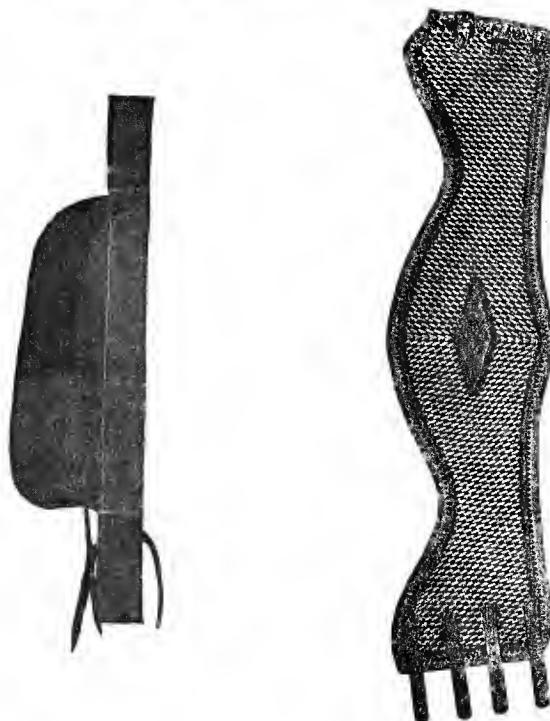

A great seller in the junior class, it is made identically like the famous Association, having, heavy Texas tree, $\frac{3}{4}$ riggin, $2\frac{1}{2}$ inch stirrup leathers, to lace or buckle, Visali bound stirrups, and with deep round skirts, wool lined, and is neatly checker stamped, braided or wrapped horn, and with a nice sloping seat and a fairly low cantle. This makes a good "Dude" or "Second" saddle to have, or is often sold to lady riders.

Length seat — 14 inch — $14\frac{1}{2}$ inch — 15 inch

Weight of Saddle 30 pounds.
